

## The Equipment

We believe in the very best when it comes to equipment. That is why you will fish from a world class boat-- a 2008 Century Center Console In Shore 2400 with a Yamaha 250 horse power outboard motor. It's big and fast and comfortable. Bring your IPOD and you can plug into the satellite radio/stereo system to hear your own music. The boat has a porta-potty inside the console just in case. The women guests especially find this added feature handy.

We also use properly maintained state of the art rods and reels. We want everything about your experience to be enjoyable. There is nothing worse than trying to land a trophy striper (or any fish for that matter) on sub-standard or poorly maintained fishing gear.
